

Genomind® Quality and Compliance

Genomind meets or exceeds all industry and quality standards and complies with all federal laws.

All Genecept Assay® and Mindful DNA® tests are received and processed at our Genomind state-of-the art genomics laboratory, ensuring complete oversight of every aspect of quality, testing, informatics security, and privacy.

When you choose Genomind for your DNA testing services, you're assured that the laboratory results you receive and the laboratory procedures we follow meet or exceed the highest federal regulatory standards for quality, accuracy, reliability, and timeliness. That's because our laboratory is certified by the College of American Pathologists (CAP), the international leader in laboratory quality assurance. CAP certification requires regular inspections and use of the most scientifically rigorous methods and principles. The Genomind laboratory also holds certification to perform highly complex testing under the Clinical Laboratory Improvement Amendments (CLIA) established by the United States Centers for Medicare and Medicaid Services (CMS).

Genomind is:

- Fully compliant with HIPAA, HITECH, and GINA regulations
- CLIA (Clinical Laboratory Improvement Amendments) accredited
- CAP (College of American Pathologists) accredited
- Licensed in all states where required:

License	License Number
CLIA	39D2088097
CAP	9046391
NY	PFI: 9035
RI	LCO 00912
PA	34051
FL	800027721
CA	COS 00800594
MD	2269
